TEAM BUILDING

OUTSIDE THE BOX

Our Christmas Outside the Box has been designed to bring out your festive spirit. It will highlight the importance and benefits of individuals and teams recognising the value of communication and working together as one force. The event highlights and draws on some key team dynamics, such as negotiation, time management, cooperation, strategy planning and communication.

The programme provides “something for everyone” which is ideal as some challenges focus on team tasks and others on individual performance. The overall activity demonstrates the advantages of team communication by utilising a mix of fun, teamwork and unusual activities with themed Christmas challenges included – all scored on a “qualitative” basis.

TEAM WORK

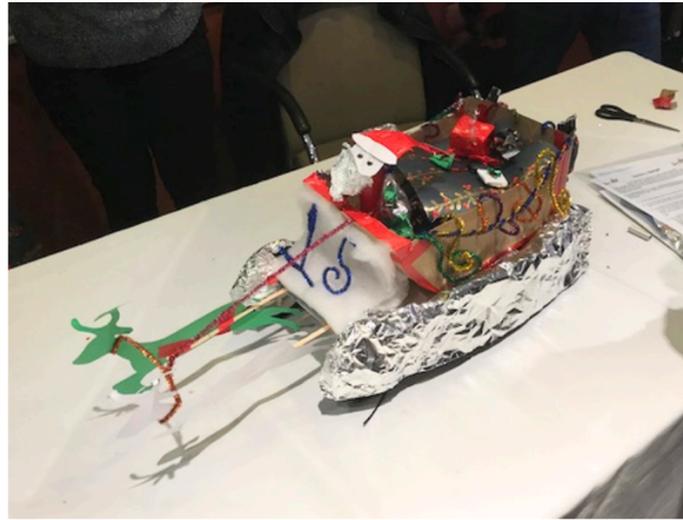

The tasks fall into 4 categories; Creative, Physical, Performance-related & Mental agility. Therefore, this event is all inclusive and has something that will make everyone merry.

DURATION APPROX. 1.5 - 2 HOURS

TEAM BUILDING

SANTA'S SLEIGH

You are Santa's last hope! Each team of elves is tasked with designing and building a model sleigh using only the equipment available for sale from Santa's Workshop, and under the tight constraints of budget and time. As there are no reindeers available, all sleighs must be "self-propelled" (they are on wheels!) and cannot be aided by pushing pulling or similar means.

In addition to the 'engineering' aspect, festive aesthetics are also important, each member of the team will have an important role to play. This is an exercise in project management, communication, use of resources, and planning. It can also be very funny.

At the end of the build time, head elves bring the team's car forward to be assessed for design quality & compliance with all the rules, and then allotted a starting position.

Finally, each Sleigh is raced, off they go down the track... or not! Some go nowhere, some go backwards, some go forwards then back, but it is the sleigh that travels the furthest that is declared Santa's new Sleigh.

DURATION APPROX. 1.5 - 2 HOURS

DURATION APPROX. 2 - 3 HOURS

CALENDAR CREATION

As you may expect from the title, this task is centred around the creation of a calendar, a challenge combining project management, tight teamwork, design, composition, lots of dressing up and posing... and huge amounts of laughter.

The actual theme of the overall compositions vary considerably, recent popular examples have included Heroes From History, Superheroes, On the farm, and themes linked to companies and it's products.

Your groups split into the designers, project managers and models, these are not mutually exclusive, so one role may easily end up doing another. 13 different scenarios are shot (12 months plus a cover shot).

We will provide a large range of costumes and props, as well as the equipment, design & technical know-how. Then it is over to your guests for the shots.

Once all 13 photos are complete, we take the images for processing and to be developed into wall or desktop calendars. These would be sent on to the attendees for their desks, or for giving to friends & family or even selling them on to raise funds for a charity of choice

A great activity at the end of the year as you can create wonderful memories for the new year

MASTERPIECE CREATION

COLLABORATION

The ultimate in collaborative team challenges where all delegates have one combined goal. Individuals must all come together with one common purpose, one objective and utilise all individual skills in pursuit of one collaborative aim, to recreate an artistic masterpiece on a large scale!

Masterpiece creation sees the delegates working together in sub groups to recreate a masterpiece as accurately as possible. Each group is given a small fraction of the picture to complete and the equipment to do so.

The aim and hope if teams work together is that when these smaller segments of a larger picture come together you have a fantastic and accurate recreation of the original picture which up to this point was a mystery to the delegates.

At the end of the allotted time the group retire for teas & coffees before all are reconvened back for a grand reveal which is spectacular. This is a fast-paced activity, great fun and highlights the need for collaboration not just on an individual level but across the board.

The outcomes are immediate, how well have the group worked together in ensuring that their part of the picture is up to scratch with the others? This is the ideal event to reinforce the one team ethos & collaboration.

PRE DINNER

COCKTAIL MASTERCLASS

A great fun event where all delegates get the chance to follow the expert and create at least 4 classic cocktails.

Guests are met by one of our experienced mixologists with a welcome cocktail to settle everyone in and are briefed on the session, what they can expect and how everything will run.

Using all of the very best ingredients each guest has a set of cocktail tools including the essential shaker and correct cocktail glasses, to follow step, by step one of our masters of cocktail creation to present their equivalent of the benchmark drink.

Sampling is essential and for those that prefer no alcohol a range of mocktails can be enjoyed.

As a finale, as there is always a bit of healthy competition, guests are teamed up to create an original cocktail of their choice. The results are named and sampled by the judges to discover who is the master of the cocktail.

The format of the cocktail master class can be adapted to the occasion.

QUIZ MANIA - CHRISTMAS

It is a well-known cliché that “everybody loves a quiz” and this is particularly true of our perennially popular interactive gameshow: phenomenally successful, and now it has that Christmas twist to enhance your evening.

It must be stressed: this is NOT a pub quiz! Quiz Mania is a pot pourri of all the best participation games you've possibly never played! It is fun entertainment, with something for everyone & definitely not designed to tax your participants in a serious manner.

Our gameshow is designed as a fully-interactive challenge. There are a number of different rounds to choose from, visual, audio and creative. Though we do like rounds which involve guests getting up from their seats and doing things as opposed to passive quiz rounds and they all have a flavour of Christmas without being too much for the Scrooge in the room. – this event is energetic, frenetic, very colourful, and VERY funny!

Following a big intro from the compère, teams are invited to design the best Santas hat for their captain (which helps break the ice for the occasion) and earns the teams initial points. Other rounds are themed with a sprinkle of Christmas to offer all round entertainment.

A frantic and fun filled evening of entertainment -
ideal for your Christmas Party Night
